High

1. Activity of the enterprise

MILLTECH SPA is a company active in the telecommunications and renewable energies sectors.

Location: Boukherana industrial zone (near Chelghoum El Aid, 400 km from Algiers)

Surface area: > 6 hectares.

The plant is equipped with a state-of-the-art production line for photovoltaic panels, capable of producing 200 MW annually (over 600,000 panels/year).

The plant produces standard and high-voltage (1500V) modules in monocrystalline and polycrystalline technologies (PERC modules to come), glass-glass and bifacial modules, as well as half-cut cell modules, to the highest industry standards and TUV certified (61215 standard).

To be completed :

- What is the integration rate of the production of photovoltaic panels (% of local value added) ?
- Production 2023?

2. Product Range

Photovoltaic panels

SIRAJ Standard Modules :

5BB MONO-PERC 60 CELL /320W

5BB MONO-PERC 72 CELL /385W

5BB POLY 60 CELL /275W

5BB POLY 72 CELL /330W

CHAFAQ (Glass-Glass Modules)

DIA (Half cell Modules)

NIBRAS (Bifacial Modules)
