Data Sheet n°48

Enterprise : Microcare (South-Africa)

1. Activity of the Enterprise.....	2
2. Product Range	2
3. Sources of Information.....	2
4. Contacts	3

Degree of accuracy of the information contained in the data sheet

Medium

1. Activity of the Enterprise

Founded in 1990 (small factory in Nelson Mandela Bay, manufacturing solar and electronic components).

Microcare has become the oldest company in South Africa to design, develop & manufacture a range of Pure Sine Wave Bi-Directional Inverters, Solar Regulators (known as MPPTs), Solar Pump Controllers (VSDs) and a range of Solar Monitoring Devices & Accessories.

Microcare has strategically aligned with certified Microcare installers & distributors around the country to ensure that the end user receives ongoing support for their investment.

Products are manufactured under strict quality control - 32 years of local manufacturing experience

Locally developed and designed for South Africa

Training Courses offered at the factory

Worldwide exporting
