1. Activity of the Enterprise

Manufacturing Premium Solar Panels Since 1997

SUNPRISM Energy Technology is a solar panels manufacturer based in Ismailia Public Free Zone (Egypt).

The current production capacity is 50 MW per annum.

Over 20 years of experience in the field.

Long-lasting international presence for the past 18 years, exporting products to Africa and the EU (primarily Germany) in addition to serving the local Egyptian market since 2014.

Through alliances with a group of pioneering and certified companies specializing in the Design, Installation and Operation of solar power stations, Sunprism provides tailored, turnkey solutions.

To be precised:

- % of local value added.
- Turnover 2023.

2. Product Range

POLYCRYSTALLINE SOLAR PANELS

36 cells Polycrystalline solar panel SP-P36 (pdf)
