Degree of accuracy of the information contained in the data sheet

Medium

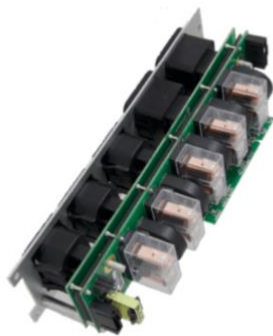

1. Activity of the enterprise

Founded in 2017, Greenage Technologies is the first indigenous mass producer of solar Inverter technologies in Nigeria, with a footprint in 26 states out of the 36 states in Nigeria. The enterprise is looking to launch in Ghana, Rwanda and Kenya in the near future.

In June 2022, Shell-funded impact investment company All On has invested 500 000 US\$ in Greenage Technologies Power Systems Ltd. To fund the construction and expansion of its charge controllers and inverters manufacturing facility in Enugu State. This investment helped to double the existing manufacturing capacity.

2. Product range
