1. Activity of the enterprise

Radel Pty Ltd. Is a manufacturer of railway equipment (contactors, sensors, lighting...) and defense equipment (switches, cables, sensors...).

Radel has its own manufacturing line, with skilled technicians and a state-of-the-art quality control system.

The enterprise is ISO 9001,14001 & 45001 certified.

Radel has over 4,000m² vertically integrated manufacturing facilities. This includes a machine shop, electronic SMD plant, harnessing, assembly, and testing facilities.

2. Product Range

In the last decade, Radel has designed, developed and manufactured its own range of products according to customer requirements. It complements the imported range.

Railway locomotives:

- Contactors
- Lighting
- Jumper Couplers
- Desk Panels
- Harnesses
- Master Controller
- Sensors

Passenger trains

- Lighting
- Desk panels and displays
- Harnesses and cables
- Master controller
- Door indicator
- Emergency handle
- Electro-boxes
- Sensors

Points to be precised:

- Turnover 2023?
- What is the % of local value added?
